

# 'We Are Happy When You Are Healthy'

By combining outstanding, cutting-edge care with unmatched convenience, the board-certified physicians at **Marion Heart Associates, P.A.** and Marion Internal Medicine Associates have become leaders in the local medical community.

**W**hen it comes to offering excellent patient care, physician experience along with the most up-to-date technology are a must. Nobody knows this better than the team of doctors at Marion Heart Associates. This group of experienced professionals has been serving Marion County for over 20 years and shows no sign of slowing down.

The practice consists of six HealthGrades® Five-Star Doctor physicians with each focusing on a particular field, making their practice both thorough and comprehensive. Dr. Mann Singh has over 30 years of experience in cardiology, cardiovascular disease and nuclear medicine. Also with more than three decades of experience, Dr. Biju Sinha specializes in internal medicine. Dr. Jaskaran Bedi concentrates on both internal medicine and geriatrics, while Dr. Josef Vesely focuses in endocrinology, diabetes and metabolism issues. Dr. Prem Singh came onboard

last year as an interventional cardiologist. He is highly trained and one of the few cardiologists in the country who has seven board certifications. The newest addition to this outstanding team of physicians is internist Dr. Kriti Kumari, who specializes in women's health. All are board-certified and all offer the utmost in patient care.

"No matter how many doctors you have seen in the past, no matter how thick your medical chart, our expert physicians and staff will do everything in their power to understand you and your illness," says Dr. Kumari.

Marion Heart Associates offers patients a combination of excellent care and convenience. The doctors work together to recommend the best diagnosis and treatment possible, and with on-site diagnostic and stress labs, patients can undergo a variety of tests from simple blood work to stress echocardiography without the hassle of traveling to a separate office.

///State-of-the-art-technology really allows us to give our patients the best care possible.///

—DR. (PREM) SINGH

“We’re like one-stop shopping,” says Kim Torres R.N., CEO of the practice. “It’s really great for our patients to be able to have this many experienced doctors all under one practice.”

And with two satellite offices located in TimberRidge and Summerfield, their services are conveniently available throughout Marion County.

An outstanding practice for two decades, Marion Heart Associates strives to keep up with the ever-evolving world of medicine. The latest advancement is the addition of the Heart and Vascular Institute of Central Florida, located in the same building. Utilizing the facility, the doctors take advantage of the most recent research, the most advanced diagnostic tools and cutting-edge interventions to help their patients.

“I’m very excited about a multispecialty team approach in this program,” says Dr. Singh who has special interest in treating heart disease in diabetic patients. He specializes in invasive and noninvasive procedures including cardiac catheterization, heart, carotid and peripheral artery stenting. He also oversees the vascular and vein clinic where patients receive the most up-to-date treatment in complex

arterial and venous disorders. He has perfected the use of a new 1470nm laser to treat patients with varicose vein, resulting in no pain and better outcomes, putting the Heart and Vascular Institute at the top of its field.

While the doctors at Marion Heart Associates continually advance their practice by staying on the cutting-edge of available treatments, their patients are first and foremost on their minds. The doctors personally treat patients at three area hospitals— Munroe Regional Medical Center, Ocala Regional Medical Center and West Marion Community Hospital—as well as several area nursing homes. The practice also offers free monthly classes on such subjects as diabetes management, healthy legs and weight loss where patients can learn more about their conditions. Perhaps Dr. Sinha sums it up best.

“We are happy when you are healthy,” he says.

This interdisciplinary approach to patient care has kept Marion Heart Associates a top practice in Ocala for over 20 years and with the newest additions, it’s safe to say that the doctors here will continue to offer nothing but the best for years to come.
